# British Journal of Oral and Maxillofacial Surgery

## Index to volume 25 (1987)

## Subject Index

Actinomycetoma
— of the mandibular region causing ankylosis 256
Acute
A new approach to the reduction of — dislocation of the temporomandibular joint: a report of three cases 244
Age-related
An investigation of possible — changes in the inferior alveolar artery in man 406
Anaerobic
Selective suppression of the — oropharyngeal microflora with local metronidazole 49
Analgesic
Psychological factors influencing post-operative pain and — consumption 285
Anatomy
Functional — of the temporomandibular joint 92
Aneurysmal
— bone cyst — A lesion in the mandibular ramus 74
Angina
— bullosa haemorrhagica: lesional immunostaining and haematological findings 488
Angio-oedema
Intravenous tranexamic acid in the management of hereditary 500
Ankylosis
Actinomycetoma of the mandibular region causing — 256
Applications
— of trigeminal somatosensory evoked potentials (TSEPs) in oral and maxillofacial surgery 308
Arterial
Therapeutic — embolisation of vascular lesions in the maxillofacial region 181
Artery
An investigation of possible age-related changes in the inferior alveolar — in man 406
Arthritis
Septic — of the temporomandibular joint — A problematic diagnosis 61
Arthroplasty
Silastic implant as a part of temporomandibular joint — Evaluation of its efficacy 227
Articular
— eminectomy for recurrent dislocation 237
Autogenous
Mandibular reconstruction using split — bone grafts 1

Benign
— chondroblastoma involving the mandibular condyle 250
Biological
— reconstruction of the mandibular condyle 100
Bleeding
Excessive — after surgery in osteogenesis imperfecta 507
Blepharoplasty
Lower — post-orbicularis approach to the orbit — A prospective study 398
Blocks
The versatility of hydroxapatite — in maxillofacial surgery 452
Bone grafts
Mandibular reconstruction using split autogenous — 1
Broken
Fragment of — instrument removed from field of operation by an electromagnet 265

Bullosa
Angina — haemorrhagica: lesional immunostaining and haematological findings 488
Burkitt's
— lymphoma in the mandible — A case report 410

Calculus
Recurrent — formation following removal of the submandibular salivary gland 15
Carcinoma
A case of squamous cell — arising in an area treated with a carbon dioxide laser 57
Squamous cell — arising in a mandibular keratocyst in a patient with Gorlin's syndrome 280
Primary intraosseous — involving the anterior mandible 427
Carriage
— rates of enterococci in the dental plaque of haemodialysis patients in Dublin 21
Cefotetan
Organisms isolated from severe odontogenic soft tissue infections: their sensitivities to — and seven other antibiotics, and implications for therapy and prophylaxis 34
Champy plate
An additional use for the — in maxillary osteotomy 437
Changes
— to the lower third facial profile following mandibular sulcoplasty with free skin grafting 465
Children
Osteomyelitis of the mandible in — Clinical presentations and review of management 204
Chondroblastoma
Benign — involving the mandibular condyle 250
Concentration
— of metronidazole in rat serum and mandible 45
Condylar
A study of — fractures in Sri Lankan patients with special reference to the recent views on treatment, healing and sequelae 391
Condyle
Biological reconstruction of the mandibular — 100
Benign chondroblastoma involving the mandibular — 250
Consensus conference
— on the management of temporomandibular joint disease 91
Conservative
— treatment for temporomandibular joint pain dysfunction 125
Cranio-facial deformities
Three-dimensional CT reformations in the assessment of congenital and traumatic — 171
CT reformations
Three-dimensional — in the assessment of congenital and traumatic cranio-facial deformities 171
Cyst
Aneurysmal bone — A lesion in the mandibular ramus 74
The primordial — (odontogenic keratocyst): its tumour-like characteristics and behaviour 271

Deformity
Reconstruction of the temporomandibular joint for acquired — and congenital malformation 149
Dental
A case of the thalassaemia major with gross — and jaw deformities 348
Dental plaque
Carriage rates of enterococci in the — of haemodialysis patients in Dublin 21
Direct
— external pin fixation of maxillary fractures using premaxillary pins 370
Dislocation
Articular eminectomy for recurrent — 237
A new approach to the reduction of acute — of the temporomandibular joint: A report of three cases 244
Distraction
A new instrument — temporomandibular joint—forceps 169
Dysfunction
Medical versus surgical management of temporomandibular joint pain and — 113
Conservative treatment for temporomandibular joint pain — 125

Dyskeratosis
— congenita in two male cousins 492

Electromagnet
Fragment of broken instrument removed from field of operation by an — 265
Embolisation
Therapeutic arterial — of vascular lesions in the maxillofacial region 181
Eminectomy
Articular — for recurrent dislocation 237
Enterococci
Carriage rates of — in the dental plaque of haemodialysis patients in Dublin 21
Entrapment
— of the neurovascular bundle by the roots of an impacted mandibular third molar — A case report 261
Extracranial
— meningioma of the oral cavity 520

Fibromyxomas
— of the jawbones — A study of ten cases 415
Fissured
Haematological and immunological features of patients with — tongue syndrome 481
Flap
Mandibular reconstruction by myo-osseous (temporalis muscle/outer table of skull) — 9
Food
— induced granuloma — An unusual cause of a submandibular mass with observations on the pathogenesis of hyaline bodies 433
Foreign body
An unusual parotid — presenting as recurrent trismus 341
Fasciitis
Necrotising — caused by dental infection 314
Necrotising — of the orbit 323
An unusual case of necrotising — 328
Fracture
— of the hyoid bone — Report of a case 402
Fractures
Mandibular — in India during the Second World War (1944 and 1945): Analysis of the Snawdon series 357
Direct external pin fixation of maxillary — using premaxillary pins 370
A study of condylar — in Sri Lankan patients with special reference to the recent views on treatment, healing and sequelae 391
Fragment
— of broken instrument removed from field of operation by an electromagnet 265
Functional
— anatomy of the temporomandibular joint 92

Gorlin's syndrome
Squamous cell carcinoma arising in a mandibular keratocyst in a patient with — 280
Granuloma
Food induced — An unusual cause of a submandibular mass with observations on the pathogenesis of hyaline bodies 433

Haemangioma
Management of — involving facial, mandibular and pharyngeal structures 195
Haematological
— and immunological features of patients with fissured tongue syndrome 481
Angina bullosa haemorrhagica: lesional immunostaining and — findings 488
Haemodialysis
Carriage rates of enterococci in the dental plaque of — patients in Dublin 21
Hereditary
Intravenous tranexamic acid in the management of — angio-oedema 500
Hyaline bodies
Food induced granuloma — An unusual cause of a submandibular mass with observations on the pathogenesis of — 433
Hydroxapatite
The versatility of — blocks in maxillofacial surgery 452

Hyoid
Fracture of the — bone — Report of a case 402

Immunological
Haematological and — features of patients with fissured tongue syndrome 481
Immunostaining
Angina bullosa haemorrhagica: lesional — and haematological findings 488
Implant
Silastic — as a part of temporamandibular joint arthroplasty. Evaluation of its efficacy 227
Implantation
Practical mandibular — 443
India
Mandibular fractures in — during the Second World War (1944 and 1945): Analysis of the Snawdon series 357
Inferior
An investigation of possible age-related changes in the — alveolar artery in man 406
Injuries
Maxillofacial and dental soccer — in Finland 383
Instrument
A new — — Temporomandibular joint distraction forceps 169
Internal rearrangement
The mandibular joint: — 218
Intraosseous
Primary — carcinoma involving the anterior mandible 427
Intravenous
— tranexamic acid in the management of hereditary angio-oedema 500
Investigation
The pathogenesis and — of TMJ dysfunction 105

Jawbones
Fibromyxomas of the — — A study of ten cases 415
Jaw deformities
A case of thalassaemia major with gross dental and — 348

Keratocyst
The primordial cyst (odontogenic —): It's tumour-like characteristics and behaviour 271
Squamous cell carcinoma arising in a mandibular — in a patient with Gorlin's syndrome 280

Laser
A case of squamous cell carcinoma arising in an area treated with a carbon dioxide — 57
Le Fort I
Recovery of maxillary sinus and tooth sensibility after — osteotomy 68
Lichenoid
Oral — reactions related to mercury sensitivity 474
Locking plates
A new method for introducing screws into — 83
Lower
— blepharoplasty post-orbicularis approach to the orbit — A prospective study 398
Changes to the — third facial profile following mandibular sulcoplasty with free skin grafting 465
Lymphoma
Burkitt's — in the mandible — A case report 410

Management
Medical versus surgical — of temporomandibular joint pain and dysfunction 113
— of temporomandibular joint diseases — Occlusal rehabilitation 121
— of haemangioma involving facial, mandibular and pharyngeal structures 195
Malformation
Reconstruction of the temporomandibular joint for acquired deformity and congenital — 149
Mandible
Osteomyelitis of the — in children — Clinical presentations and review of management 204
Burkitt's lymphoma in the — A case report 410
Primary intraosseous carcinoma involving the anterior — 427
Osteomyelitis of the — in metastatic staphylococcal infection 334

Mandibular
— reconstruction using split autogenous bone grafts 1
— reconstruction by myo-osseous (temporalis muscle (outer table of skull) flap 9
Biological reconstruction of the — condyle 100
— fractures in India during the Second World War (1944 and 1945): Analysis of the Snawdon series 357
Neuroblastoma presenting as — swelling in a two-year old girl — A short case report 422
Practical — implantation 443
Mandibular joint
The — :Internal rearrangement 218
Mandibular ramus
Aneurysmal bone cyst — A lesion in the — 74
Mass
Food induced granuloma — An unusual cause of a submandibular — with observations on the pathogenesis of hyaline bodies 433
Maxillary
Direct external pin fixation of — fractures using premaxillary pins 370
Maxillofacial
— and dental soccer injuries in Finland 383
Medical
— versus surgical management of temporomandibular joint pain and dysfunction 113
Meningioma
Recurrent — of the head and neck — Two case reports and a review of the literature 512
Extracranial — of the oral cavity 520
Mental nerve
Somatosensory evoked potentials to electrical stimulation of the — 300
Mercury
Oral lichenoid reactions related to — sensitivity 474
Method
A new — for introducing screws into locking plates 83
Methylprednisolone
The influence of — on post-operative swelling following oral surgery 293
Metronidazole
Concentration of — in rat serum and mandible 45
Selective suppression of the anaerobic oropharyngeal microflora with local — 49
Myo-osseous
Mandibular reconstruction by — (temporalis muscle/outer table of skull) flap 9

Necrotising
— fasciitis caused by dental infection 314
— fasciitis of the orbit 323
An unusual case of — fasciitis 328
Neuroblastoma
— presenting as mandibular swelling in a two-year-old girl — A short case report 422
Neurovascular
Entrapment of the — bundle by the roots of an impacted mandibular third molar — A case report 261
Non-ankylosed
Surgery of the — temporomandibular joint 138

Occlusal
Management of temporomandibular joint diseases — rehabilitation 121
Oral
— lichenoid reactions related to mercury sensitivity 474
Orbit
Necrotising fasciitis of the — 323
Lower blepharoplasty post-orbicularis approach to the — A prospective study 398
Organisms
— isolated from severe odontogenic soft tissue infections: Their sensitivities to cefotetan and seven other antibiotics, and implications for therapy and prophylaxis 34
Osteogenesis imperfecta
Excessive bleeding after surgery in — 507
Osteoma
— of the tongue 79
Osteomyelitis
— of the mandible in children — Clinical presentations and review of management 204
— of the mandible in metastatic staphylococcal infection 334
Osteotomy
An additional use for the Champy plate in maxillary — 437

Pain
Psychological factors influencing post-operative — and analgesic consumption 285
Pathogenesis
The — and investigation of TMJ dysfunction 105
Parotid
An unusual — foreign body presenting as recurrent trismus 341
Pin
Direct external — fixation of maxillary fractures using premaxillary pins 370
Post-operative
Psychological factors influencing — pain and analgesic consumption 285
The influence of methylprednisolone on — swelling following oral surgery 293
Post-orbicularis
Lower blepharoplasty — approach to the orbit — A prospective study 398
Potentials
Somatosensory evoked — to electrical stimulation of the mental nerve 300
Applications of trigeminal somatosensory evoked — (TSEPs) in oral and maxillofacial surgery 308
Practical
— mandibular implantation 443
Primordial
The — cyst (odontogenic keratocyst): Its tumour-like characteristics and behaviour 271
Profile
Changes to the lower third facial — following mandibular sulcoplasty with free skin grafting 465
Psychological
— factors influencing post-operative pain and analgesic consumption 285

Reactions
Oral lichenoid — related to mercury sensitivity 474
Reconstruction
Mandibular — using split autogenous bone grafts 1
Mandibular — by myo-osseous (temporalis muscle/outer table of skull) flap 9
Biological — of the mandibular condyle 100
— of the temporomandibular joint for acquired deformity and congenital malformation 149
Recovery
— of maxillary sinus and tooth sensibility after Le Fort I osteotomy 68
Recurrent
— calculus formation following removal of the submandibular salivary gland 15
— meningioma of the head and neck — Two case reports and a review of the literature 512
Reduction
A new approach to the — of acute dislocation of the temporomandibular joint: A report of three cases 244
Rehabilitation
Management of temporomandibular joint diseases — Occlusal — 121

Salivary
Recurrent calculus formation following removal of the submandibular — gland 15
Screws
A new method for introducing — into locking plates 83
Selective suppression
— of the anaerobic oropharyngeal microflora with local metronidazole 49
Sensibility
Recovery of maxillary sinus and tooth — after Le Fort I osteotomy 68
Sensitivity
Oral lichenoid reactions related to mercury — 474
Septic
— arthritis of the temporomandibular joint — A problematic diagnosis 61
Silastic
— implant as a part of temporomandibular joint arthroplasty. Evaluation of its efficacy 227
Sinus
Recovery of maxillary — and tooth sensibility after Le Fort I osteotomy 68
Skin grafting
Changes to the lower third facial profile following mandibular sulcoplasty with free — 465
Snawdon series
Mandibular fractures in India during the Second World War (1944 and 1945): Analysis of the — 357
Soccer
Maxillofacial and dental — injuries in Finland 383

Soft tissue infections
Organisms isolated from severe odontogenic — : Their sensitivities to cefotetan and seven other antibiotics, and implications for therapy and prophylaxis 34
Somatosensory
— evoked potentials to electrical stimulation of the mental nerve 300
Applications of trigeminal — evoked potentials (TSEPs) in oral and maxillofacial surgery 308
Squamous
A case of — cell carcinoma arising in an area treated with a carbon dioxide laser 57
— cell carcinoma arising in a mandibular keratocyst in a patient with Gorlin's syndrome 280
Staphylococcal
Osteomyelitis of the mandible in metastatic — infection 334
Submandibular
Recurrent calculus formation following removal of the — salivary gland 15
Sulcoplasty
Changes to the lower third facial profile following mandibular — with free skin grafting 465
Surgery
— of the non-ankylosed temporomandibular joint 138
Surgical
Medical versus — management of temporomandibular joint pain and dysfunction 113
Swelling
The influence of methylprednisolone on post-operative — following oral surgery 293
Neuroblastoma presenting as mandibular — in a two-year-old girl — A short case report 422

Temporomandibular joint
Septic arthritis of the — — A problematic diagnosis 61
Functional anatomy of the — 92
Surgery of the non-ankylosed — 138
Reconstruction of the — for acquired deformity and congenital malformation 149
A new instrument — — distraction forceps 169
Silastic implant as a part of — arthroplasty. Evaluation of its efficacy 227
A new approach to the reduction of acute dislocation of the — : A report of three cases 244
Temporomandibular joint disease
Consensus conference on the management of — 91
Temporomandibular joint diseases
Management of — — Occlusal rehabilitation 121
Temporomandibular joint pain
Conservative treatment for — dysfunction 125
Thalassaemia major
A case of — with gross dental and jaw deformities 348
Therapeutic
— arterial embolisation of vascular lesions in the maxillofacial region 181
Third molar
Entrapment of the neurovascular bundle by the roots of an impacted mandibular — — A case report 261
Three-dimensional
— CT reformations in the assessment of congenital and traumatic cranio-facial deformities 171
TMJ dysfunction
The pathogenesis and investigation of — 105
Tongue
Osteoma of the — 79
Haematological and immunological features of patients with fissued — syndrome 481
Tranexamic acid
Intravenous — in the management of hereditary angio-oedema 500
Trigeminal
Applications of — somatosensory evoked potentials (TSEPs) in oral and maxillofacial surgery 308
Trismus
An unusual parotid foreign body presenting as recurrent — 341

Vascular lesions
Therapeutic arterial embolisation of — in the maxillofacial region 181
